

PM Professional Coach

Course Overview

PM Professional Coach is an affordable, Web-based program that is self-paced and focused on meeting a full spectrum of project management learning needs. The program is designed to reinforce the fundamental principles of project management and help prepare you for the Project Management Professional (PMP®) examination.

And if you're serious about taking the next step in your project management career, earning the PMP designation should be at the top of your to-do list. Passing the PMP exam requires effort, and PM College has designed an online learning program to help you reach this goal.

The PM Professional Coach learning approach is based on discovery and reinforcement. Your learning path begins with the PM Concepts sections.

Self-Study Aids

Interactive learning aids built into PM Professional Coach help you step back and see what you have really absorbed during your studies. Interactive Flash Cards test your comprehension of each knowledge area covered in the PM Concepts section. Once all PM Concepts and Flash Cards sections have been completed, a comprehensive, 30 question multiple-choice Final Exam measures your knowledge of the subject matter. For additional practice, an interactive Question and Answer (Q&A) section is also available. This section not only confirms whether you got an answer correct or incorrect, it also gives you the why – why is my answer right or wrong?

PMP Exam Practice

A comprehensive PMP Exam Prep test is included the 25 and 40-hour packages. The PMP Exam Prep test allows the user to take the exam up to three times. Question pooling allows you to get a different experience each time, which really builds practice for when you sit for the PMI exam.

A detailed summary of test performance is provided at the end of the test. This summary will help you to understand which knowledge areas – if any – you need to focus additional studies. After completing the practice test, you'll feel more comfortable with the PMP exam format and know what to expect when taking the actual exam.

PMP Study Guide

Becoming a PMP is a project in itself, so why not plan it like any other project? The PMP Study Guide is a companion document included with the "PMP Prep " and "Corporate Edition " packages that shares study strategies, approaches, and resources collected from PM College participants over the last several years that have successfully passed the exam.

Progress Reporting

PM Professional Coach provides you with testing feedback on your pass rates and for those questions you missed, will direct you to the area to concentrate on for reinforcement. The Transcript feature will also provide you with progress reporting.

Testimonials

“Thank you for offering your PM Professional Coach online learning program. I purchased the PMP Prep Package for the 35 hours that I needed to take the PMP exam, and I just passed! I do not think that I would have been able to take the exam without the help of the PM Professional Coach program. And the customer service I received was exceptional. With limited financial resources, it is an outstanding value. I would recommend PM Professional Coach to anyone that needs educational credit for the PMP.”
